

Engineered Solutions
to Sealing Problems

Distribution CAPABILITIES

Distributing High-Tech Engineered Solutions

Seal Company has developed new and exciting ways to better serve our customers through our distribution options. We offer various solutions to effectively solve problems that most businesses go through. We have solutions for almost every application using a variety of materials for conformance to your company's application needs. From JIT, kitting, co-branding, and VMI offerings, it is easy to see why we are an industry leader.

Seal Company distributes parts from the best names in the industry, from companies that are responsible for performance and the quality of service that they offer. A partial list is as follows:

O-Ring & Engineered Seals Division (OES)

Custom Molded Rubber Products, O-Lube Barium Base O-ring Lubricant, O-rings, O-Ring Installation & Extraction Tools, O-Ring Kits, Par Bak O-ring Back-Ups and Super O-Lube Silicone Base O-ring Lubricant. Close Tolerance Extruded and Injection Molded Sliced and Lathe Cut Static Seals.

Composite Sealing System (CSS)

Fastener Seal (Bolt & Screw Seal) Available in Stat-O-Seal, Loc-O-Seal and Thread Seal Styles, Rubber to Metal Gaskets Available in Gask-O-Seal and Integral Seal Styles, and 920 style Copper Crush Washers.

Engineered Polymer Systems Division (EPS)

Cushion Seals, EC-Pac Valve Stem Packing, Metric Buffer Rings, Seals and Rod Wipers, Piston Cups, PolyPak Lip Seals, "PSP" Style Piston Seals, T-Seals, Teflon Seals, Teflon Lip Seals, "US" - "UP" - "UR" - "BS" and "BT" style U-Cups, V-Packaing, Wear Rings, and "959" - "940" - "H" - "J" - "SHU" and "U" Style Rod Wipers.

Quality

Seal Company is dedicated to providing the best products and services to our customers, this is why we possess some of the highest industry certifications possible. Our certifications include:

- GIDEP Member
- SAE AS 9100 Rev. D
- ISO 9001: Rev 2015
- ITAR Registration
- UL® Certified Re-Packager

ORINGONE: Endless Large Size O-Rings produced with an innovative step-compression-molding process.

DUCI: O-Rings in various compounds and certifications for automotive, general, food and medical industry.

DUEPI: Mold design and manufacturing.

FLUORTEN: PTFE and HPP - High Performance Polymers. Stock Shapes and custom engineered components.

F.LLI PARIS: Rotary Shaft Seals and custom-made shapes in various elastomers and Rubber to Metal bonded.

ATS: Special Large Sizes Rotary Shaft Seals for the Heavy-Duty Industry.

SLIB: Sliding Bearings and Bushings for applications in valve, hydraulic, energy and metals industry.

KALREZ® & VESPEL®

Kalrez® KVSP Valve Stem Packing, Kalrez® Molded Rubber Products, Kalrez® High Temperature and Chemical Resistant Elastomeric O-Rings, and Kalrez® Vulcanized O-Rings.

SIMRIT®, DISOGRIN, FREUDENBERG NOK & MERKEL

Custom Molded products, Diaphragms, Encoders, Floating Seals, Fluid Power Products, Gaskets, Mechanical Face Seals, Microcellular Polyurethane, O-Rings, Plate Seals, Polyurethane O-Rings, PTFE Products, Radial Shaft Seals, Reed Valves, Silicone products, Valve Stem Seals.

Parco is an industry leader in the development of proprietary elastomeric compounds and rubber-to-metal bonding techniques. They offer a variety of products including O-Rings, back-up rings, custom molded seals, rubber-to-metal bonded parts, and machined metal parts. To maintain the highest quality, we make our own molds, develop and mix our own compounds, and mold our parts in computer-controlled presses.

OTHER ITEMS CARRIED:

Teflon® Backups (PTFE), PEEK Products, Spiral Wounds, Oil Seals, Quad® Rings, Laser Cut Plate Products, Rubber to metal bonded products.
